ABOUT ZCAMP

200+
production capacity

With 100,000 square meters of self-built production base and 200+ units monthly production capacity. As a source manufacturer, we provide you with strong production strength guarantee.

SERVICE
High-quality

Zcamp adhere to high-quality products and service, focus on reputation. Equipped with a strong after-sales team to provide high-quality after-sales services to global users.

NO-WORRY
Company is strong

Zcamp company is strong and provides solid support for customers' purchases without worries.

470+
Patents

470+patents worldwide, it effectively avoids claims and ensures user-friendly.

Zcamp is a brand enterprise originating from California, USA, championing the philosophy of 'hOmeEverywhere - the world is our home'. Utilising high-tech prefabricated modular housing as its entry point, it pioneers the development of premium camping facilities. With two major production bases in Anhui and Guangdong provinces, boasting over 140,000 square metres of workshop space, it specialises in manufacturing over 200 space pods monthly. The core team integrates expertise in campsite planning and industrial design to create an integrated service system for scenic area campsites. Holding over 470 patents globally, its products are sold in more than 36 countries and regions, with over 500 projects completed worldwide. With production and sales volumes leading the market for two consecutive years in 2024 and 2025, it has become a premier supplier for high-end campsites and resort hotels across the globe.
